HOME WARRANTY PLAN

This warranty plan covers the services required to repair you home systems or appliances in the event of a spontaneous mechanical or electrical breakdown or malfunction that is beyond the inherent and natural wear and tear characteristics. The protection plan is divided into two parts: home systems and appliances.

Covered home systems by this Warranty Plan include:

- Main central heating
- Central air conditioning system
- Electrical system
- Core plumbing system
- Water heater and tankless water heater (if own by you)

The Plan covers your systems for a maximum program service value of \$10,000 for a 12-month period.

- One of each system is covered.
- A \$50 deductible will be charged.

Covered appliances by this Warranty Plan include:

- Range or built in oven and cook top (electrical or gas)
- Clothes washer and dryer
- Dishwasher
- Kitchen refrigerator

The Plan covers a maximum repair value per appliance of \$2,000 including the diagnostic of the technician. These amounts are included in the maximum value of \$10,000 that constitutes the Warranty Plan ceiling for a 12-month period.

One of each system is covered.
A \$50 deductible will be charged.

How does it work?
